

101433	Arabic Syntax 4	(3 credit hours)	(prerequisite "101332")
---------------	------------------------	-------------------------	---------------------------------

The course develops the student's syntactic thinking, as it acquaints him with a number of syntactic constructs, including: the testimonial, the conditional, ellipsis, and la seyyama (a nominal construct for preference). It also introduces the student to demonstratives and verbal forces and cites examples from the literature of Arabic syntax.
