

108108 Study Skills (3 CHs)

This course aims at improving the students' command of English and gives them skill and practice in using English as a language of instruction. English study skills taught in this course include skills such as: using English dictionaries, learning English vocabulary, writing an outline, improving reading, using a library and learning to pass examinations. Such skills will help students improve their study habits in English and improve their work in all the subjects they are studying
