

7.4.4 Policy development for clean energy technology

IU provided consultations to various governmental sectors at the national level and owing to the need of training in the domain of reviewable energy / solar panels. The university collaborated with the Middle East Council of Churches and German Jordan University to conduct a course in Isra University that addresses Solar Energy “How to Install Solar Panels P.V”. the course is 24 credit hours and will benefit industries. The course was approved and will commence between Nov 2023 and Jan 2024.

Training Course in How to
Install Solar Pannels P.V.
