

13.4 Commitment to carbon neutral university

13.4.1 Commitment to carbon-neutral university

Isra University is actively working toward its goal of becoming a carbon-neutral university. As stated in section 13.2.2, we are implementing practices that contribute to this aim. Isra University is effectively reducing its carbon footprint and demonstrating a commitment to environmental responsibility. This effort benefits the university community and fosters a sustainable future by lowering greenhouse gas emissions and promoting a healthier planet.
