

SDG17: PARTNERSHIPS FOR THE GOALS

To fulfil SDG 17, "Partnerships for the Goals," Isra University focused on various aspects:

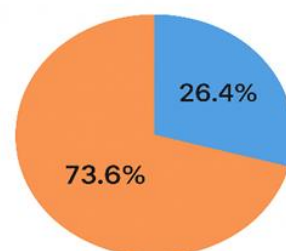

1. **Forge Partnerships:** Collaborate with local, national, and international organisations, NGOs, and governments to share knowledge, resources, and technology aimed at sustainable development.
2. **Research & Innovation:** Engage in joint research initiatives with industry and academic partners to develop sustainable solutions, fostering an exchange of expertise and innovations.
3. **Capacity Building:** Provide training programs for students, staff, and community members, equipping them with the skills needed to work towards SDGs.
4. **Public Engagement:** Host conferences, workshops, and seminars with diverse stakeholders to raise awareness and inspire action towards the SDGs.
5. **Resource Mobilisation:** Seek funding and resource-sharing agreements with partner institutions to support sustainability projects, allowing for shared responsibility and impact.

17.1 Research into partnership for the goals

17.1.1 Proportion of output co-authored with low or lower-middle income countries

Jordan is a low- and middle-income country (LMIC) that aims to foster collaborations across various research areas with other LMICs or developing countries to gain knowledge and build capacity. In the 2023-2024 academic year, IU published a total of 488. In 2024, IU published a total of 488. In collaborations, 73.6% of our research output in 2024 was based on collaborations with other LMICs such as **Egypt, Tunisia, and Iraq**. In total, Isra University had partnerships with more than 150 organisations. According to the Scopus database, Isra University collaborates with several LMICs.

Year	No. of publication	No of organization	Regional and International	Local collaboration
2023	474	150	61.5%	39.5%
2024	488		73.6%	26.4%
